Skills/Qualifications

Web Development Languages

- HTML5 & CSS3
- WordPress
- ECMAScript 6/Javascript
- Node JS
- PHP
- MySql

Other skills include: Javascript frameworks (React JS & AngularJS), JQuery, Express JS, CSS preprocessors (Sass & Stylus), Handlebars JS templating language, Jade, Git Version Control, CSS animations, Responsive Web Design, style guide management, Photoshop, and Adobe Fireworks.

Experience

Freelance Web Developer

- Taught myself skills listed above and used these skills to acquire freelance projects.
- Have never received less than 5 stars (out of 5) for work I've completed through freelance websites.
- Used these projects as well as personal projects to create online portfolio showcasing my work.
- Continue to learn new and exciting technologies in the field, keeping abreast of what is on the bleeding edge.

Construction/Landscape Construction

- Worked many years in construction and landscape construction, specializing in building outdoor patios, walkways, retaining walls, etc.
- Learned to work hard - many times in the face of tight deadlines.
- Developed great working habits and was learned to be self-motivated in almost any conditions.
